### HEADACHE WARNING

Remove the Cause with Naturalized Liver Tablets

Headaches are one of nature's warning. They mean danger. Remove the cause by taking Naturalized Liver Tablets. If cold and bile is allowed to clog and accumulate, you are in danger of having your entire system poisoned, for the simple reason that if this poisonous matter is not removed when nature's warning says it should be, your blood will absorb it and distribute to every extremity of the body, then serious results are likely to follow. A mild laxative will not expel bile and colds. It takes a good purgative. Take Naturalized Liver Tablets, nature's best purgative. They are small, active, safe and sure. They will not salivate, sicken, gripe or leave you constipated. Get a bottle today and if they are not the best purgative you have ever used, go back where you purchased them and get your money. Sold in 15c and 35c bottles by Scott Drug Co., Baxter Springs, Kansas

## MANY MILLS ARE READY TO OPERATE

Commerce Paper Says Many Mills Are Ready to Begin Operation—Some of Them in Baxter District

The following is from the Commerce News:

"In the Hockerville field the Miami Volunteer and the Lucky Jennie are almost ready to operate; in the St. Louis field the Brewster and the Cortez are well under way; in the Picher field the Jefferson, the Miami Metals No. 2 and the LaSalle are almost completed; in the Tar River field the Lawyers, the Pelican and the Silver Plume are almost ready to start; in the Douthat field the Century and Wilson are being built; in the Quapaw field the Quapaw mill of the Big V is nearly finished, and in the Sunnyside field the Prairie, the Good Luck, the Charlotte and the Aurora are almost ready to begin operating.

"Nearly all of these mills are on properties that are especially rich and a conservative estimate on their capacity would be 4,000 tons of concentrates a shift of ten hours, which would mean 24,000 tons a week, which at these times would mean adding at least 1,500,000 pounds a week to our turn in, which last week, with the epidemic of 'flu' in full blast and a great shortage of help generally amounted to \$291,680."

## FRANCE NEEDS YOUR HELP

This sketch by Felix Monneraud, French artist and soldier, was published in the October Spiker, a magazine published in France by the Eighteenth Regiment, American Railway Engineers.

The sketch of the little French boy, using his left hand to shake with the big American soldier, illustrates the friendly feeling of France and America, according to Felix Monneraud.

The American soldier is all sympathy for the French, who have suffered so much. The American people who stay at home, would be more eager to save every staple food if they realized the great need of the Allies.

During the present fiscal year ending next July 1 we must ship 50 per cent more food than was shipped in the last fiscal year. This food is made up largely of breadstuffs, meat and fats, besides sugar which comes from Cuba.

### Hog Raising Boosted.

The Food Administration will continue its policy of stabilizing the hog price throughout the entire war, according to present indications. A meeting has been held to determine the fair price for November. This is based on the price of corn

for the last five months. The object is to insure the farmer that he can get the money back for the corn he fed his hogs and also make a fair profit.

There is no law fixing the price of hogs, but the Food Administration is doing all it can to encourage hog production by providing a fair price.

### HENS CROWD MARKET.

The poultry market is overcrowded and as a result prices are poorer than they ordinarily ought to be. Prices are sure to rise later in the winter, according to investigation made by government farm experts.

Producers may assist in improving the poultry market, which in some cases has fallen below the probable cost of production, by selling only such stock as is well developed and of good quality. The Food Administration asks poultrymen particularly:

To withhold from market immature chickens and moulting hens.

To keep chickens that are still growing until they reach maturity.

To keep all laying hens and the best pullets.

To extend the normal period of fall marketing so that it will extend into the winter.

### BROKE 80-20 RULE.

The Nusz Mill of Industry, near Abilene, failed to observe all the regulations of the Food Administration and as a result was asked to pay \$200 to the Red Cross as a guarantee of patriotism. The money was paid. The mill violated the 80-20 rule which requires that dealers must sell one pound of substitutes with each four pounds of flour.

In the case of exchange grinding a mill is required to have the farmer who exchanges wheat for flour without buying substitutes, sign a pledge that he will get the substitutes elsewhere and will mix those substitutes in the flour before baking bread. The Nusz Mill failed to require the signing of that pledge.

### BARLEY & BREWING SITUATION

With the closing of breweries in the United States after December 1, any temporary dislocation in the barley market should cause producers little concern.

Barley is good as human food and also for livestock.

When barley is to be fed livestock, the grain should be crushed. Owing to the hard exterior of barley kernels, farm animals do not otherwise secure the greatest nourishment from the whole grain. This year's crop should assist materially in relieving the feed situation and the high level of prices for animal products makes the feeding of barley in excess of market demands both profitable and patriotic.

### SUGAR RULE RELEASED.

The Food Administration announces that sugar is more plentiful than it

## The Sterling Market

### FRESH MEATS

Not packing house stuff but the best young cattle I can buy. Am buying cattle and hogs from farmers all the time to supply my market. My cured meats are the best. Bacon such as Morris Supreme, Swift Premium, Fowles Mistletoe. These are the best money can buy.

At the Sterling market you get quality and full weights, more for your money.

I appreciate the people's trade, and my business is good. I have three good meat cutters to wait on you. Come and be satisfied.
